

**THE SPEECH OF THE
PARKVIEW SAPS
STATION
COMMANDER FOR
COMMUNITY
POLICING FORUM
FOR ANNUAL
GENERAL MEETING**

SUID-AFRIKAANSE POLISIEDIENS

SOUTH AFRICAN POLICE SERVICE

PARKVIEW SAPS

Greetings to the Parkview CPF executive and everybody present, I am very thankful to be given the privilege and opportunity to partake in this important meeting. So part of my role today is to reflect on the year gone and the new year going forward... As we move into 2021 and the close of the year, when we are all feeling a tad weary but there is a spark igniting at the thought of some annual leave over festive season.

The 2019/2020 financial year has been challenging and exciting at the very same time. There has been overall Crime Reduction over two financial years in succession 2018/2019 and 2019/2020.

It worth mentioned that above mentioned data was collected accurately using our policing measuring tools which is our Efficiency Index and Crime Administration System (CAS)

When analysing, we have seen that although we have reduced total Crime picture there are still stubborn Contact Crimes like Common Robberies, Theft of Motor Vehicles and Theft out of Motor Vehicles. In order to address these challenges we have decided to intensify our disruptive operations, mobilisation of community involvement, multi-disciplinary approach which involve our security companies in our policing precinct and identify and raid drug posts.

In terms of **BATHO PELE** Principles INTER ALIA we talk about Consultation and Access which inform us about the relevance and the importance of the CPF structure.

This has also led to realisation that crime combating strategies cannot be successfully if Implementation thereof is done in silo. Community Policing Forum, is an influential partner in the fight against crime and the reduction of crime has also been archived because of immense contribution and dedication of our members, stake holders in Parkview policing precinct.

In Terms of Annual Operational Plan 2020/2021 financial year for Parkview SAPS we intend to address our challenges by applying 6 pillars of the Provincial priorities:

- Reduction high level of crime
- Dealing with drugs
- High visibility
- Arresting of wanted criminals
- Community mobilization
- Development and empowerment of members

I must concede that there has been overwhelming complaints against the police in terms of service delivery. We then developed Service Delivery Improvement Action Plan that seeks to address all challenges.

We intend to improve our working relationship with other relevant stake holders in our policing precinct.

We acknowledge and thank Parkview Community Forum (CPF) for conducting community survey that has already helped us to assess the level of quality of our services that we are rendering to the communities.

Lastly we thank our Communities for their efforts and the CPF for championing those initiatives by being the present partners during the outbreak of COVID19. Your efforts have been seen and truly noticed. So we need to do more together. We need a collective louder voice. We need to take risks. We need to show the power of what we can do. I thank you.
